

I'm gonna be your friend

Take a look around you:
It may well astound you
How some people make it through.
Got no food or shelter,
Life's a helter-skelter;
Listen up, I'm talking to you.

*Right here today,
I just wanna say,
I'm gonna help, I'm gonna be your friend.
Friends stick together
Through all kinds of weather,
An' I'm gonna be your friend.*

Take a look around you:
It may well astound you
How some people just get by.
We can turn a sorrow
To a bright tomorrow,
Now it's up to you and I.

*Right here today,
I just wanna say,
I'm gonna help, I'm gonna be your friend.
Friends stick together*

*Through all kinds of weather,
An' I'm gonna be your friend.*

'Cause when you got friends, you got hope,
A bond that will keep us together.
We can be there for each other,
Friendship that lasts forever.

Take a look around you:
It may well astound you
How some people just get by.
We can turn a sorrow
To a bright tomorrow,
Now it's up to you and I.

*Right here today,
I just wanna say,
I'm gonna help, I'm gonna be your friend.
Friends stick together
Through all kinds of weather,
An' I'm gonna be your friend.*

*Friends stick together
Through all kinds of weather,
An' I'm gonna be your friend.*
